1. Uninterrupted Power Supply: We request your support in ensuring a continuous power supply at all examination centres during the examination hours. This is essential to maintain the electronic systems and lighting, and to prevent any disruptions that could adversely affect the candidates performances and the overall examination process.
2. Availability of Internet: Though the examination is conducted on computers connected over a LAN with no internet connectivity at examination centres during the conduct of examination, the availability of internet is essential to download the encrypted Question Papers at all examination centres before the start of examination and to upload the candidate response & other exam related data to central data centres after conduct of examination. Your support is solicited in ensuring the minimal availability of internet connectivity at all examination centres.
3. Law and Order: We seek your collaboration to maintain law and order around the examination centres. Given the high stakes involved, it is crucial to deploy adequate security personnel to manage the crowd, traffic and to prevent any untoward incidents.
4. Sanctity of the Examination: We request to direct all concerned state functionaries to take all possible measures to preserve the integrity and sanctity of the examination.
5. Cyber Security: Cyber security is crucial for ensuring the integrity and confidentiality of online exams, protecting against unauthorised access and cheating.
